

Symptom Checker 101

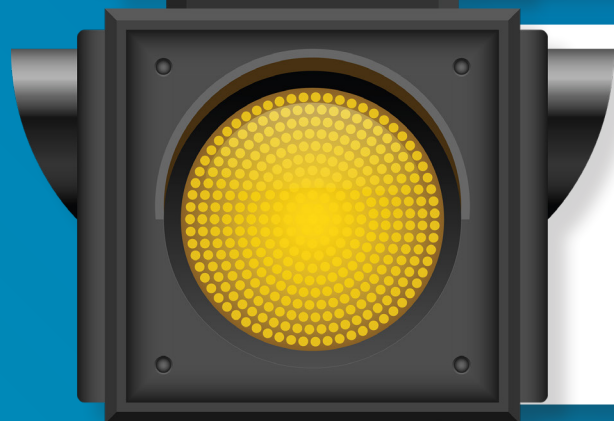

Tummy troubles, aches and pains, or a case of the blues: Where can you go for answers on all this and more? Our symptom checker! Here's a snapshot of what it has to offer.

Know Where to Go

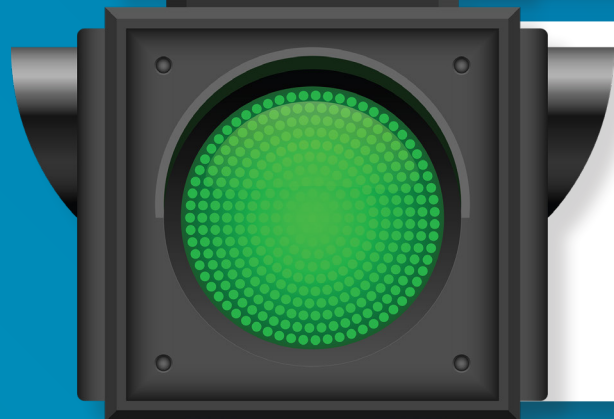

Our color-coded care guides explain how to get the best treatment for your symptom. Learn how to interpret your results and find our services quickly by following the recommended care path.

RED: Get help now. Click on your specific symptom to find out if you should call **911**, go to an urgent care clinic or ER, or call your doctor immediately.

YELLOW: Get help soon. Depending on the symptom, you may need to contact your doctor within 24 hours.

GREEN: Take recommended steps to relieve symptoms at home.
